

MEN AS THEY PASS.

Don Jermain Riesco, the president elect of Chile, is a relative of the retiring president, Señor Errazuriz.

Professor Rucker's successor in the presidency of the British association will be Professor Dewar, who will appear in the chair at the Belfast meeting in 1902.

Lord Dufferin, who has recently completed his seventy-fifth year, once referred to himself, on account of the numerous offices he has held, as "mailed of all work to British governments."

Attorney General Knox has bought a home in Washington. The house is in a fashionable section in K street, northwest, between Fifteenth and Sixteenth streets. The consideration was \$118,000.

"If I had but a thousand a year" was the refrain of an old song. Ex-Senator J. N. Camden of West Virginia has just had a thousand a day assured to him for 48 years to come, and still is not a rich man. All things are relative.

It is said of John L. Pingree, the brother of the late ex-governor of Michigan, that he would never do for a politician—"he's too honest." He has a shoe factory in the little village of Ashland, Middlesex county, Mass.

It is not generally known, perhaps, but J. Pierpont Morgan has one of the most elaborate collections of beer steins in America. During his recent trip abroad he purchased two more that formerly belonged to a collection owned by Prince Bismarck.

Hugh Douglass Wise, who has been made a captain in the Ninth regiment, United States infantry, is the young officer who carried his camera up the hill at San Juan and rendered important service by photographing the position of the enemy. Captain Wise was graduated from West Point in 1894.

George J. Gould, like his father, is a silent man. He divides his secrets with no one. Taught in a practical school, he has the ability, the wealth and the experience to develop his plans on a scale of great magnitude. It is predicted he will make a greater reputation as a master financier than his father left, and that he will accumulate, if he has not done so already, a much larger fortune.

THE WHIRL OF FASHION.

The old fashioned flowing Victorian sleeve, with a fall of lace inside, is one of the latest of the summer models that is used on elaborate evening toilets.

The simplest pique costumes in blue, pink, pale yellow or white have a bolero jacket and a gored skirt bordered with a heavily stitched circular flounce.

Canvas veiling is much used for demi-dress gowns made in various fashionable styles in which the bolero and tucked skirt models are still prominent.

Any appearance of swathing the throat in folds of heavy silk or satin is now considered wholly passe, and where there are high neckbands on summer gowns they are of the lightest and daintiest description.

Blue in all its shades, from the delicate forget-me-not and bebe blue tints to iris, cornflower and hyacinth shades, will be even more popular, both in dress and millinery, than it proved during the winter and spring seasons.

THE REVIEWER.

Maybe the reason Tsai An refuses to return to Peking is that she has a few valuables left.—Atlanta Journal.

The Kurds are reported to be killing off the Armenians again. When it comes to going on the warpath the American Indian is not able to stay in the same class with the Kurds.—Omaha Bee.

By imperial decree from Russia's czar, woman is granted equal rights of admission to the Alexander university in Helsingfors, Finland, with tyrant man. Who will now deny that the world do move?—Boston Globe.

It is said that Spain will contract for eight new cruisers in England, France or Italy. The Spanish know where the best warships are built, but have a delicacy about acting on their information.—St. Louis Globe-Democrat.

Government should make a terrible example of a few bank wreckers. They have a way of losing the money of their depositors and then living a life of luxury, while their victims hustle to get more.—Detroit Free Press.

Lord Wolseley's remark that the United States army is the finest in the world for its size is strictly true, but that is not all there is to say about it. On occasion it can be made the finest in point of size also.—Chicago Chronicle.

PULPIT AND PEW.

Smithfield, Va., claims the oldest church in the country. It is St. Luke's, erected in 1632 and restored in 1894.

Cincinnati is a stronghold of Presbyterianism. Sixty-four churches are included in its presbytery, 28 of these being within the limits of the city.

Dr. Josiah Oldfield, author of a new book on "The Death Penalty," says that he wrote to all the bishops of the Church of England for their opinions on the subject and received from them favored the abolition of the death penalty.

PERT PERSONALS.

Wilhelm gives the rose to Bismarck dead. He used the thorn on Bismarck living.—New York World.

For a case of nerve Lord Salisbury's charge against the Boers of "greed of territory" is entitled to the medal.—Pittsburg Dispatch.

Before sailing for Europe Dr. Chauncey Depew made his will. He is perhaps afraid that the strain of hunting up new jokes may prove too much for his constitution to withstand.—Kansas City Times.

Susan B. Anthony has told us confidentially, as it were, how she would manage a bad husband. What Susan knows about managing husbands would not fill many volumes. At the age of 82 Susan is still a maiden.—Omaha Bee.

WISE UNCLE RUSSELL.

What would become of Wall street and the New York banks if Uncle Russell Sage were not on hand in times of peril with relieving loans at a prosperous percentage?—St. Louis Post-Dispatch.

After all, Uncle Russell Sage plays the game about right. With financial stringency threatening Wall street, all he has to do is to go down into his jeans and make loans to the needy at the top rate on gilt edged security. Between loans he allows himself to be interviewed on the exceeding folly of trying to get rich too rapidly by speculating.—Minneapolis Tribune.

FOWL AND THEIR FRUIT.

See that each fowl gets its share of feed.

If you want to keep eggs for any length of time, turn them over every few days.

Clean earth is one of the best absorbents that can be used in the poultry house.

In raising fowls for market select a breed which will make the greatest growth in the shortest time and be of a good quality for the table.

It is a good plan to shut the chicks in coops at night and let them out as soon as it is light in the morning and be sure to feed them as soon as they are let out.

Young ducks sell well early in the summer. The growth should be pushed along now as rapidly as possible. They grow much more rapidly than chickens and sell better.

Horses For Every One.

With a population of 4,780,000 the Argentine Republic possesses 5,081,000 horses. It is the only country in the world that has a horse for every inhabitant.

The Diamond.

The diamond if laid in the sun and then carried into a dark room shows distinct phosphorescence.

Tip of the Tongue.

The tip of the tongue is chiefly sensible to pungent and acid tastes, the middle portion to sweets and bitters, while the back is confined entirely to the flavors of roast meats and fatty substances.

Tobacco.

The world has 2,250,000 acres under tobacco cultivation, which produce \$50,000 tons a year.

Annual Ham Market.

Paris still preserves the medieval custom of having an annual ham market at the end of March. More than 2,000 dealers take part in the exhibition.

A Korean Wonder.

A Korean wonder is a drop of the sweat of Buddha. For 30 paces around the temple in which it is enshrined not a blade of grass will grow. There are no trees or flowers inside the sacred square. Even the animals decline to profane a spot so holy.

Arrows in China.

Backwoodsmen of China still use the bow and arrow as a weapon.

The Largest Forest.

Canada has the largest forest in the world. It is in the Labrador and Hudson bay district and is, roughly, 1,000 by 1,700 miles.

Costly Metals.

The general impression is that gold is the greatest of all precious metals, but scientists assert that there are at least 17 metals on the roll of metal-lurgy that are greater in value than the yellow metal.

Trades Unions.

In 1806 the tailors organized the first labor organization in the United States. In 1819 the hatters organized, the printers in 1831.

Honey Makers.

Bees suck over 3,000,000 flowers to gather one pound of honey.

Potato Bread.

Potato bread is now extensively used in Thuringia, Germany, to feed horses, especially when they are worked hard in very cold weather. The bread is made of it, and its length are ex-

The lost child, who presently finds his way home in the policeman's protecting arms, is hugged to his mother's heart with a new joy. But the mother's heart is empty as her arms when her children are lost for life. How many a woman goes through such an experience, appealing in vain for help to local doctors, who confess that they are "puzzled" to understand the cause of the trouble.

In similar cases Dr. Pierce's Favorite Prescription has been used with such success that its record commands it to every woman whose children fail of vitality.

"Favorite Prescription" gives the mother strength to give her child. It strengthens the female organism, giving great elasticity to the organs of maternity, and making the baby's advent practically painless. It is the true woman's medicine, establishing regularity, drying weakening drains, and healing inflammation.

"I can cheerfully recommend Doctor Pierce's Favorite Prescription as the best medicine for women," writes Mrs. Mary Murdock, of 220 Taylor St., Topeka, Kansas. "I am the mother of ten children and only one living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, some were born at right time, but dead, others were premature births; one lived to be one year old, but she was always feeble. I tried different doctors, but none of them could tell what my trouble was. They said I was well and strong. I was examined by surgeons, but they found nothing wrong, and they were puzzled to know what my trouble was. I did not know what to do, so I thought this last time I would try Dr. Pierce's Favorite Prescription. I took it the entire nine months and now I have a fine baby girl, and I cannot praise your medicine enough for the good it did me."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

English Monarchs.

The average duration of the reign of English monarchs for the last 600 years has been 21 years.

Our First Clocks.

The first clocks manufactured in this country were by Eli Terry at Plymouth, Conn., in 1793. The manufacture soon became extensive, and Connecticut wooden clocks were famous all over the country.

Visible Stars.

All stars down to the sixth magnitude are visible to the naked eye.

A Spider's Thread.

A spider's thread is really composed of four smaller threads, each of which consists of 1,000 separate tiny threads, so that the thread we see is spun of 4,000 films.

The greatest healer of modern times is Banner Salve for cuts, wounds, sores, piles and all skin diseases. It is guaranteed. Use no substitute. Wilson & Son.

MICA
Makes short roads.
AXLE
And light loads.
GREASE
Good for everything
that runs on wheels.
Sold Everywhere.
Made by STANDARD OIL CO.

FREE FOR TWO WEEKS.

Our full three months

COURSE IN SHORTHAND.

If you can read you can learn shorthand by our system, which beats the world. No interruption from business. Full course by mail. We can teach you just as successfully in your own home as at a school. Shorthand writers in great demand. Increase your salary by learning this most valuable art.

To advertise our school and peerless system of teaching by mail, we will give a full course to a limited number who are willing to do a few hours' pleasant work for us free. We assist graduates in obtaining positions and set them up in business for themselves. Send self addressed envelope for particulars.

COLUMBIA SHORTHAND SCHOOL,
Box 531, New Haven, Conn.

VIRGINIA COLLEGE

For YOUNG LADIES, Roanoke, Va.

Opens Sept. 21st, 1901. One of the leading schools for young ladies in the south. New buildings, pianos and equipment. Campus ten acres. Grand mountain scenery in valley of Va., famed for health. European and American teachers. Full course in English, Latin, French, German, Italian, Spanish, and other languages. Students from thirty states and foreign countries. Address MATTIE P. HARRIS, P.

A BEACON OF HOPE
FOLEY'S
HONEY-TAR
FOR THE
Throat, Chest
and Lungs
PREPARED BY
FOLEY & CO.
CHICAGO, ILL.

QUARTER-century old remedy for coughs and colds that's as good today as it ever was, and always has been the best. Twenty-five years of guaranteeing Foley's Honey and Tar, because it was a sure remedy, has brought its reward in large sales and many friends. It's still the same guaranteed-to-cure-or-money-back remedy. It will cure all coughs and colds, croup and whooping cough, la grippe and bronchitis. It will relieve asthma and consumption, even the worst cases, and will prevent pneumonia. It's guaranteed.

For cuts, bruises or sores
BANNER SALVE is best.
